INTRODUCTION:

Most of women entrepreneurs faced significant challenges threatening the survival and the survival and the selfemployed. Most of women entrepreneurs faced significant Most of women entrepre their businesses Small and medium-sized emerprises (stress businesses Small and provide 70% of employment worldwide. These businesses globally and provide 70% of businesses globally and provide stress (stress businesses stress businesses globally and provide stress businesses globally and provide stress (stress businesses stress businesses stress businesses stress businesses stress (stress businesses stress businesses stress businesses stress businesses stress (stress businesses stress businesses stress businesses stress businesses stress (stress businesses stress businesses stress businesses stress businesses stress (stress businesses stress businesses stress businesses stress stress businesses stress (stress businesses stress businesses stress businesses stress stress stress businesses stress stres for 90% of businesses globally and provide 70% of busines typically entrepreneur led, are unreasened by the strength and million typically entrepreneur led, are unreasened by the strength and million typically entrepreneur led, are unreasened by the strength and strength are at risk. This reports presents insights from a global study conducted during the strength are strength as the strengt jobs are at risk. This reports presents margined at 134 countries that represent 3/4 pandemic in 2020. We surveyed over 5,000 entrepreneurs in 23 countries that represent 3/4 pandemic in 2020. We surveyed over 3,000 onto pandemic in 2020. We surveyed out a surveyed over 3,000 onto pandemic in 2020. We surveyed out a surveyed over 3,000 onto pandemic in 2020. We surveyed out a surveyed the world's economic output. We also see restrictions utilizing government support through being agile, adaptive, and exploring new opportunities, utilizing government support through being agire, adaptive, and even harbouring growth ambitions beyond the pandemic support giving back to society, and even harbouring growth ambitions beyond the pandemic support giving back to society, and even harbouring growth ambitions beyond the pandemic support giving back to society. Entrepreneurs' mental well-being dropped by 12% in the pandemic presenting another threat their businesses. We chart stressors and well-being resources including social support and care strategies that entrepreneurs engaged to stay productive. We close the report (1) in reflecting on five trends for the post-Covid economy and formulate actionable policy recommendations of how entrepreneurs and SMEs can be supported in light of these treat (digitalisation; 'local' focus, inclusive business models, developing personal and business resilience), and (2) offer five practical steps for entrepreneurs to protect their well-being.

India's female population, as per 2011 census, is 498 million and constitutes 482 percent of the total population. Of those 91.40 million are in work force and 90 percent of the are in the informal sector with no legislative protection and with worst condition of working Nearly 75 percent of the female population is rural and mostly velong to the subsistence seems In agriculture women mostly undertake labour intensive and drudgery prone activities in transplanting wooding boundertake labour intensive and drudgery prone activities transplanting, weeding, harvesting and post harvest operations. The also work in the allied field such as animal husbandry, forestry, plantation, fishing etc., More often, the economic activities undertaken by the rural women on their own farm or in animal husbandry get disguised household work and remain uncertainty for the control of household work and remain unreported. The Government of India, since independence, in the concerted efforts to bring woman into the concerted efforts to be concerted efforts making concerted efforts to bring women into the mainstream of development through its various programmes and schemes. But the improvement of the programmes and schemes. But the improvement in rural women's condition is painfully slow. After independence, Government launched and administration of development through the improvement in rural women's condition is painfully slow. After independence, Government launched community development program for bringing about all round progress of the rural masses. In the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for bringing and made in the community development program for the community development program all round progress of the rural masses. In the initial stage, no serious attempts were made welfare of the women under this cover the welfare of the women under this program. As a part of these schedule, schools were started family. opened, nutrition programs were started, family planning schemes were under taken, family and the Contract programs were planned health and schemes were under taken, family and the Contract programs were planned health and schemes were under taken, family and the Contract programs were planned health and the contract programs were planned by the contract program were planned by the contract planned by th children welfare programs were started, family planning schemes were under taken, family by the Government in the villages later purples. by the Government in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs integrated rural development in the villages later number of programs in program IRDP (1978-79) TRYSEM (1979) JJRY, (1989) IAY, Mahila Samrithi Yojana (1989)

NOMEN DEDELOPMENT DURUING PLAN PERIOD

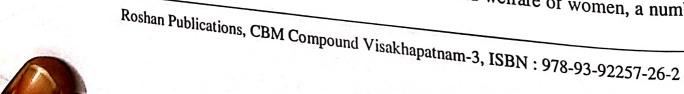

First five Year Plan focused on the MEN DEDBED Year Plan focused on the welfare of women and it was clubbed with the The First five Year Plan focused on the plan emphasized that in order to fulfill The First five Year Flan to the plan emphasized that in order to fulfill women's of other disadvantaged and the community, adequate services need to be promoted in the family and Plan emphasized the post of the of other disadvantaged groups. The plan emphasized that in order to fulfill women's adequate services need to be promoted for the family and Plan emphasized the need for special attention to service attention to service. in the raining and Plan emphasized the need for special attention to problems of welfare. The Second Plan emphasized the need for special attention to problems of welfare, since they were comparatively less organized and suffered from control of the property of the plants of the property of the pr men's workers, since they were comparatively less organized and suffered from certain social men workers, since they are comparatively less organized and suffered from certain social men workers, since they are comparatively less organized and suffered from certain social men workers, since they are comparatively less organized and suffered from certain social men workers, and physical disabilities. The plan suggested the speedy implementation workers, since usey well compared to some social workers, since usey well as a problem social workers, since usey workers. The plan suggested the speedy implementation of the and physical disabilities. The plan suggested the speedy implementation of the speedy for equal work, provision of facilities for training to enable the speedy implementation of the speedy and physical disabilities. The plant suggested the speedy implementation of the speedy pay for equal work, provision of facilities for training to enable women to inciple of equal pay for equal work, provision of acilities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of opportunities for apart-time employment of the far higher jobs and expansion of the far higher jobs and expansion of the far higher jobs and expansion of the far higher jobs are the far higher jobs and expansion of the far higher jobs and expansion of the far higher jobs and the far h per for higher jobs and expansion of opportunities for apart-time employment. Continuing approach of the First Plan, Mahila Mandals and Community Descriptions mpete for higher jobs and First Plan, Mahila Mandals and Community Development welfare approach of the First Plan, thrust of the Third plan as a second plan as were organized. The main thrust of the Third plan as welfare approach of the main thrust of the Third plan as regards Women's were organized. The main thrust of the Third plan as regards Women's organized or the expansion of female education. In social welfare the transformation of the expansion of female education. ogrammes were organized to the spansion of female education. In social welfare, the largest share was spelopment was on the expansion welfare services and condensed courses. avided for expanding rural welfare services and condensed courses of education. The proach in the Fourth Plan was a continued emphasis on women's education. As regards social effare, the basic policy was to promote women's welfare with the family as the base of elfare, the base of gave priority to training of women in need of care and protection, peration. The vince of care and protection many from low income families, needy women with dependent children and working women.

The first five plan emphasized on the welfare of women. It was only in the Sixth Five ear Plan that there was a shift from welfare to development. The International Women's Decade 1975-85 had its impact on the planning process in India. As a result of persistent obbying by women's groups, the Sixth Plan made a significant departure from past practices. Women's development received recognition as a specific section and a separate chapter was moduced in the plan document which is a landmark in the history of women's development planning in India. The Sixth Plan declared that a fair share of employment opportunities would have to be created through poverty alleviation programmes assuming that employment and mome generation would automatically lead to improvement in the status of women. During the Sixth Plan point Sinth Plan period, a variety of programmes were taken up under different sectors of development to raise the economic and social status of women. Vocational Training Centers and Industrial Indiana I Programme(IRDP) accorded priority to women heads of households, one third of the beneficiaries under TRAY (CALL) beneficiaries under TRYSEM were women and a new scheme called Development of Women and Children in D. Apart from these there was and Children in Rural Areas (DWCRA) was started in 1982-83. Apart from these there was increased focus on all Litteased focus on education and health also. The Seventh Plan continued the policy of the Sixth lowards women. locus on education and health also. The Seventh Plan continued the poncy of the blan lowards women. In order to raise their economic and social status and to bring them into the stream of national. wards women. In order to raise their economic and social status and to bring usent meaning stream of national development, beneficiary oriented programmes for women in different activities were identified. Stream of national development, beneficiary oriented programmes for women in difference of women's day-to-day activities were identified and promoted. To reduce drudgery of women's day-to-day spinning, between on improved. were identified and promoted. To reduce drudgery of Women's day-10-day activities on improved agricultural implements, better methods of sheep rearing, wool spinning, post harvest practices, food processing, etc, were taken up. The approach to women development to employment. The fighth Five Year Plan marked benefits of development to employment. post harvest practices, food processing, etc, were taken approached to employment to employment. The schemes in the Eighth Five Year Plan marked benefits of development sectors do not bypass women. The process of development from different sectors do not bypass women. The process of development role in the sectors of development post harvest practices, schemes in the Eighth Five Year Plan marked belief to scheme some that the benefits of development from different sectors do not bypass women. The plant that the benefits of development as its major focus played a very important role in the development as its major focus played a very important role in the development. ensured that the benefits of development from unfertable women. The persured that the benefits of development as its major focus played a very important role in the development with human development as its major focus played a very important role in the development with human development as its major focus played a very important role in the development was in the formation. with human development as its major rocus played women's development was in the formation women. A major thrust in the strategy for women's groups, which would articulate local women's with number of thrust in the strategy for workers women. A major thrust in the strategy for workers women. A major thrust in the strategy for workers would articulate local women's strengthening of grass root level women's groups, which would articulate local women's strengthening of grass root level women's planning and implementation of programmes strengthening of grass root level women's and play an important role in decentralized planning and implementation of programmes.

The Ninth Plan took a major step by incorporating "Empowerment of Women" as one of the appropriate of the standard during the plan period. To this effect, the appropriate of the standard during the plan period. The Ninth Plan took a major step by incorporate The Ninth Plan took a major st the main objectives of development during the plan was to create an enabling environment where women could freely exercise their rights by plan was to create an enabling environment where women could freely exercise their rights by plan was to create an enabling environment where women could freely exercise their rights by plan was to create an enabling environment which with men. During the Ninth Plan a special women related sectors were specifically which more that 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which more than 30 per cent of the funds in women related sectors were specifically earmarked which were specifically earmarked which were specifically earmarked which were specifically earmarked which were specifically earlier than 30 per cent of the specific which were specifically earlier to the specific which were specific which were which more that 30 per cent of the range with the for women's programmes. Indira Mahila Yojana launched in 1995-936 has been recast after the control of the range with the control of the control of the range with the range with the control of the range with the merging with Mahila Samridhi Yojana and renamed as Swayamsidha in 2001. The scheme envisages achieving economic strength for women through micro-level income generaling activities. Several other initiatives have been launched to provide comprehensive package of up gradation of skill through training, extension of input and market linkage in the traditional number of skill through training activities. sectors. The Swarnajayanti Grama Swarogar Yojana (SGSY) was launched in 1999 with the objective of bringing the beneficiary families (Swarozgaris) above the poverty line by providing them income-generating assets through a mix of bank credit and government subsidy, It is envisaged that 50 per cent of SHGs in each block should be exclusively of women, who will account for at least 40 per cent of the Swarozgaris. Economic empowerment through entrepreneurial development in women is one of the possible approaches for achieving this end Empowerment of women is agriculture may be envisaged in terms of improvement of awareness knowledge and skill that makes effective use of local resources and takes account of the local needs and constraints.

III. PATTERNS OF WOMEN DEVELOPMENT IN INDIA:

The government has been implementing various schemes for the socio economic ment and devolutions of the socio e advancement and development of women in the country. The National policy for empowerment and development of women in the country. of Women was adopted in 2001 with the objective of ensuring women their rightful place society by empowering them as agents of socio-economic change and development of Warrant 'Empowerment of Women' is therefore, an important approach adopted in the Tenth Five years (2002-2007) for development of Policy Plan (2002-2007) for development of women. With a view to translating the National Policy Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, a National Plan of Action for Empowerment of Women into action, and the properties of the Plan of Action for Empowerment of Women into action, and the properties of the Plan of Action for Empowerment of Women into action, and the properties of the Plan of Action for Empowerment of Women into action in the Plan of Action for Empowerment of Women into action in the Plan of Action for Empowerment of Women into action in the Plan of Action for Empowerment of Women into action in the Plan of Action for Empowerment of Women into action in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empowerment of Women in the Plan of Action for Empower has been contemplated. To eliminate all types of discrimination against women and the girl characteristic structure of the st and their empowerment, major strategies include social empowerment, economic empowerment and gender iustice. Department of Blander iustice and gender iustice. and gender justice. Department of Elementary Education and Literacy are implementing important schemes in the areas of advantage and Literacy are implementing important schemes in the areas of education viz 'Sarva Shiksha Abhyan' and Maha Samakhya as special efforts to stretch the reaches of the stretch the stretc Samakhya as special efforts to stretch the reach of education especially to the girl child. With objective of achieving economic empowerment and welfare of women, a number of schemes

These include Swyamsidha, Swashakti, Rashytrya Mahila Kosyh, implemented. Training-cum-Employment Program (STEP), Swadyar, and Hostel Studies reveals that the economic role-played by women cannot be isolated workingwomen. Studies reveals that the economic role-played by women cannot be isolated to the framework of development. The contribution of the women in the socio-economic role-played by women in the socio-economic role-played by women in the socio-economic framework of development particularly in the rural areas has been vital. Around 77 percent of the total female played particularly lives in rural areas. Out of the main workers as many as i.e. 80% are solved of the country lives in rural areas. Out of the main workers as many as i.e. 80% are solved of the country lives in rural areas. Out of the main workers as many as i.e. 80% are solved of the country lives in rural areas. Out of the main workers as many as i.e. 80% are solved of the bour is to liberate to the work of the total female work as a major part of the dairy animals and winnowing. Women do most of the work of caring for the dairy animals and solved working and winnowing. Women do most of the work of caring for the dairy animals and solved of their products. In house hold industries it is 4.6 as against the male percentage of their products. In house hold industries it is 4.6 as against the male percentage of their products. In house hold industries it is 4.6 as against the male percentage of their products. In house hold industries it is 4.6 as against the male percentage of their products. In house hold industries it is 4.6 as against the male percentage of their products. In house hold industries it is 4.6 as against the male percentage of their products. In house hold industries it is 4.6 as against the male percentage of their products. In house hold industries it is 4.6 as against the male percentage of their products. In house hold industries it is 4.6 as against the male percentage of their products. In house hold industries it is 4.6

Perhaps the need of the hour is to liberate women from the domestic drudgery as Perhaps une need of the leisure time towards creating awareness and participation in above and divert their leisure time towards creating awareness and participation in the family welfare and income generating activities. The transfer of the property welfare and income generating activities. ntioned above and super status and out making awareness and participation in pation, health, family welfare and income generating activities. The discrimination approach, ignorance and super status and out making in participation in position, nearus, ignorance, and super status and out molded customs and traditions burden of poverty, ignorance, then through contract the status and out molded customs and traditions burden of potons, and traditions and traditions women are aware of then through group participatory approach. In this context policy women and governments concentrating more on women empowerment through provide selfployment and it is a fact that their multilevel contributors, skills, are identified by the central d state governments especially in 21 century to take them in mainstream of the economic ivities for speedy sustainable development. Employment of women does not necessarily lead economic independence or control over earnings. What exactly determines the male-female ferences in the work fields is yet to be ascertained and most studies have not helped in and economic explanations as but partial. Work participation rate derstanding the processes defined as the percentage of workers to total population. Women development patterns in We-Year Plans shows that in the 1st plan (1951-56) the concept of women development was welfare oriented. During this period, a number of welfare programs and measures were detaken by the control social welfare Board (CSWB), set up in 1953 and implemented rough voluntary organizations. Women were largely organized. Into Mahila Mandals in the Five year plan to play a vital role in the development of women at the grass root level. his Mahila mandal scheme was introduced to help the village women to become as good wife, a woller, a competent housewife and a responsible member, of the village community.

The development approach for women was largely mould in the Fifth Five years plan with the focus on education health, and family planning and welfare. The Sixth Five year plan ladia, towards equality. Thus Sixth plan was a landmark in the history of women's development was recognized as one of the developmental sectors. It also recognized like low status of women in large segments of Indian society of Indian society and cannot be without opening up opportunities of independent employment and income for them; as a pilot project levelopment of women and children in rural area (DWCRA) was started as a pilot project

in 50 districts in 1982-83 in the country. During the Seventh and Eighth Five year identification and promotion of beneficiary oriented programs for women in plantification and promotion of beneficiary oriented with a view to raise women's economic to main stream of national development. in 50 districts in 1982-83 in the identification and promotion of beneficiary oriented programs for women are placed identification and promotion of beneficiary oriented with a view to raise women's in independent of the interval of the interval of the into the main stream of national development. The National Commission for Self Employed Women and women in the Informal Sector The industrial sector and women in the informal sector had suggested which made situational review of women in the informal sector had suggested (1988) Which make the protective measures which would ensure guarantee of employment and income infroduction of protective measures which would ensure guarantee of employment and income generation minimum wages. Welfare and support services, training and upgradation of skills, generation initial and appropriation of skills, this end a programme for women (STEP) was launched in 1986 as one of the measures to ensure well being of women in the traditional informal sector. The STEP programme 100% Central Sector Scheme is under implementation since 1986-87. STEP scheme aims to provide skills that give employability to women and to provide competencies and skill that enable women to become self-employed/entrepreneurs. The scheme is intended to benefit women who are in the age group of 16 years and above across the country. Assistance under the scheme would be available in any sector, including agriculture, horticulture, food processing, handlooms and tailoring etc.

Training is provided to poor and marginalized women in traditional trades which are largely in the informal sector. The programme strives to build upon the traditional knowledge of women and convert it into sustainable livelihood capacitation. The programme of STEP aims to make a significant impact on women by upgrading skills for self and wage employment. The sequence of activities is envisaged as mobilizing women in viable groups, improving their skills, arranging for productive assets/access to wage employment, creating backward and forward linkage, improving/arranging for support services, providing access to credit, awareness generation, gender sensitization, nutrition education, sensitization of project functionaries etc., STEP advocates an integrated package of inputs aiming at the self-reliance and empowerment of women by enhancing their productivity and enabling them to take up income generation activities. The ultimate endeavour of each project should be develop the group to thrive on a selfsustaining basis in the market place with the minimal Government support and intervention after the project period is over.

Suggestions:

In order to encourage more women towards setting up of MEs, the subsidy amount should be increased. increased and the same time the subsidy should linked to the promptness of the repayment.

The state government should give necessary instructions to the developmental agencies. The state government should give necessary more development give nec

- One of the major problems of the MEs is marketing of the production services. There is One of the major problems of the transfer and other related products, but some products to the continuous and constant demand for daily and other related products, but some products to readymade garments, plantation and jute based products etc. there is no assured markets continuous basis. Hence, it is advised the government agencies should come forward in purchase of these items. It is also suggested that mandal level, divisional level district to fairs, exhibitions should be arranged for manual benefits of the all the stockholden Government should provide infrastructure for training of SHG members in ME as the marketing infrastructure for marketing of the products.
- Multiple Enterprises development programs are to be so that awareness for setting up of ME could be attained. Entrepreneurial and management skills such as risk bearing, enterpris planning, product innovation, need perseverance, financial resource mobilization production, marketing demand forecasting, cost control, HR related aspects should it properly imparted amount the SHG members for commercial viability of the enterprise Entrepreneurship among women, no doubt improves the wealth of the nation in general m of the family in particular.
- Women today are more willing to take up activities that were once considered the preserved men, and have proved that they are second to no one with respect to contribution to growth of the economy. Women entrepreneurship must be molded properly with the entrepreneurial traits and delivers and state. entrepreneurial traits and skills to meet the changes in trends, challenges global markets and skills to meet the changes in trends, challenges global markets and skills to meet the changes in trends, challenges global markets and the competent and the changes in trends, challenges global markets and the changes in trends and the changes in trends are changes in trends. also be competent enough to sustain and strive for excellence in the entrepreneurial arena.

Conclustions.

A large number of women entrepreneurs come from an entrepreneurial family ound and thereby do not receive much background and thereby do not receive much opposition on the family front. However, despite having a positive family environment having a positive family environment, compared to male family members, women family members have less freedom, support and authority to male family members, women family members have less freedom, support and authority members have less freedom. members have less freedom, support and authority in decision-making related to their enterprises In such cases, women experience the double burden of managing their family as well as

Within the family, women receive more support from female family members, both in setting up their enterprises and search and pandemic. But interestingly, in cases with the family members and search winess affairs. When male family members, both in setting up their enterprises and recovering from the compared to pandemic. But interestingly, in cases where there is no covering from the ompared to maic land. But interestingly, in cases where there is no entrepreneurial family $O_{\text{taround}}^{\text{port from female family members}}$ company panderns of the pander
